

# **IRTS Radio News Bulletin Sunday August 26th 2007**

---

## **Church Broadcasts**

For some weeks we have been carrying an item about broadcasts of Mass from a Church in the north Dublin area on 28.105 MHz FM. Stations are reminded to listen out for these transmissions on weekdays at 1000 hrs and on Sundays at 0900, 1000, 1100 and 1200 local time to try to identify the Church concerned. Stations in the Dublin area are asked to take bearings on the transmissions or try to identify the general area from which the transmissions originate. We would appeal again to stations in the Dublin area to put a little effort into identifying the source of the transmissions so that details can be forwarded to ComReg. We are getting international reports on these transmissions and we have an obligation to do something about them.

We have also received reports of transmission of Mass on 28.285 MHz. We do not have any idea yet where this transmission is originating. We would ask stations countrywide to listen on 28.285 MHz FM at the appropriate times in their areas so that this station can also be identified. If you hear anything worth reporting you should send a report to Thos Caffrey EI2JD the IRTS Intruder Watch coordinator at QTHR or to “thoscaffrey at hotmail dot com” with a copy to Sean Nolan EI7CD at QTHR or to “ei7cd at gofree dot indigo dot ie”. The report should include date, time, frequency, signal strength, possible location of station if identified, beam heading in degrees from true north and any other relevant information. If the station is identified from an announcement of local events, details should be given. Should you hear anything, no action should be taken other than forwarding a report as requested.

## **MRG Experimenter Group**

The MRG experimenter Radio Group VHF/UHF SSB Challenge 2007 will take place between 15:00 hrs and 18:00 hrs (local time) on Sunday the 9th of September.

The Fixed section will take place on 144 MHz and 432 MHz (SSB only) and the Portable section 144 MHz and 432 MHz (SSB only).

Any EI/GI operator holding an amateur/experimenter licence can participate. Closing date for logs is October the 9th 2007. Please forward completed logs to “ei2mrg at yahoo dot com”. Trophies will be presented to the winners of the fixed and portable sections later in the year. A full copy of the rules can be had by visiting

## **Limerick Radio Club**

Members of Limerick Radio Club took part in the recent International Lighthouse Weekend from Tarbert Island Lighthouse No. IRE 073. Two stations were in operation over the weekend and more than 300 contacts were made. Those taking part included Dermot EI2GT, Tony EI2AW, Mike EI2IX, John EI6IW, Simon EI7ALB and Alan EI8EM. Those requiring a QSL card should contact the QSL Manager, Alan EI8EM.

Limerick Radio Club wishes to advise repeater users that a new antenna has been installed on the 2-metre voice repeater. It is a Procom CXL2-3C 3db gain, vertically polarised omni-directional antenna. The club would appreciate signal reports from users. These can be sent to "ei4lrc at eircom dot net".

The next meeting of the Club will be on the Thursday 11th of October at the usual venue, the Limerick Institute of Technology, Moylish at 19:30 local time. All those interested are welcome to attend.

---

## **EI0MAR**

Last Friday week Fr. Finbarr Buckley, President of the IRTS paid a visit to EI0MAR at the vintage radio museum in Howth. It being a weekday, the club station was not QRV during Finbarr's visit. However, as it happened, a young student of opera, Caroline Cunningham, was visiting at the same time. Pat Herbert, the curator, played some old 78 records on one of the gramophones for the visitors including operatic arias by Margaret Burke-Sheridan the famous Irish opera singer. Not to be outdone, Caroline then proceeded to entertain Finbarr and Pat by singing some operatic arias herself. Despite EI0MAR not being QRV, the group are sure that Finbarr enjoyed his visit and look forward to greeting him again in the future when the station is active. However, the best music EI0MAR can promise Finbarr next time is the music of Morse code.

EI0MAR will be celebrating the IRTS's 75th birthday by using the call sign EI75IRTS on the first two Sundays in September. CW will be the main mode of operation although some CQ calls will also be made on SSB as well. If conditions are favourable, the 7 MHz band will be the main focus, to allow as many EIs as possible to work the special call sign. The station may also be QRV on the Saturdays of the same weekends. EI0MAR is QRV most Sundays between 11 and 3. Telephone and email contact details for EI0MAR are available on the museum website which is [www.qsl.net/ei5em/museum.html](http://www.qsl.net/ei5em/museum.html) A link on the museum web page will take you to

EIOMAR's own web site.

---

## **HF SSB Field Day**

The IRTS SSB field day will take place over the first weekend (1st and 2nd) of September from 13:00 UTC on Saturday to 13:00 UTC on the Sunday. Again the grounds of Garbally College, Ballinasloe, Co. Galway will be available, thanks to Niall EI4CF and once again the Shannon Basin Club will be hosting their now famous Barbeque.

This is a multi-operator contest for portable stations and provides an opportunity for clubs and groups to practice their portable operating and station set-up skills. The Paddy Daly Microphone is awarded to the station with the highest checked score in the open section and the IRTS HF Shield is awarded to the station with the highest checked score in the restricted section. Details and rules are available on the IRTS web site.

---

## **CQIR – Ireland Calling Contest**

The Society's 75th Anniversary Contest CQIR will take place on the last weekend in September from 12:00 UTC on Saturday the 29th to 12:00 UTC on Sunday the 30th. There is great interest world wide being expressed in this contest which is a celebration of Ireland and the Irish, throughout the world and with 40 million people in the United States alone claiming Irish forefathers; we expect that CQIR will be one of the largest 'one off' contests ever aired on the Amateur Bands. It is a 24-hour single operator contest with the emphasis on participation rather than winning and to this end every participant gains an entry ticket for a spectacular draw for every 75 QSO's made during the Contest.

The ticket drawn out of the EI/GI drum will win an all expenses paid long weekend in New York City for two people. ARRL have confirmed that this will include a visit to their national headquarters hosted by ARRL. Kinnitty Castle in Offaly will host the international winners for a week with flights for two from anywhere in the world. The prizes have been fully sponsored at no cost to the Society and this is really an excellent opportunity to celebrate the Society and its 75 years of service to Irish experimenters. We would encourage all Irish operators to be active during the Contest. So ring fence the last weekend of September in your diary, make an effort to have that new antenna up for the event and lets ensure a good show from the local Irish operators to support the international Irish who will no doubt come on the bands in their thousands for the contest. Full rules are on the IRTS website.

---

## **South Eastern Amateur Radio Group**

The next general meeting of South Eastern Amateur Radio Group will take place on Monday the 27th of August at 8.00 p.m. in the Roanmore Centre. All are welcome!

For up to date information, visit the groups' web site on [www.searg.com](http://www.searg.com)

---

### **Upcoming Rallies**
